

PosBrowser has been designed to serve customers quickly. Sales can be completed with one keystroke!

The PosBrowser Touch Screen interface is entirely configurable. This allows each shop to have a unique set of buttons that suit it. Buttons can range from an individual product to elaborate menu systems—the choice is yours!

THE AUSTRALIAN	FINANCIAL REVIEW	The Sydney Morning Herald
HERALD	Daily Telegraph	LUCKY DIP
STATIONERY	DRINKS	STAMP
TOYS - GAMES	LOTTO	LOTTO PAYOUT

PosBrowser links to most EFTPOS systems in Australia. The sale amount is sent directly to the EFTPOS unit, ready for the customer to use their card, eliminating the chance of a keying mistake and speeding up service!

Search for products directly from the Cash Register! Staff can quickly find an item, see if it is in stock, find its physical location, and more. If an item is out of stock, an order can easily be placed for it.
